Car Seat Safety Check

Low cost child safety seats
available to
families that qualify

Please call to make
an appointment

541-440-4486

*Parents need to
bring their children
with them for
proper safety seat
fitting and
inspections*

*Certified
technicians will
help make sure
your child safety
seats are properly
installed.*

Let our techs show you
how to avoid these
five common mistakes:

1. The child safety seat moves more than one inch from side to side
2. The child safety seat faces the wrong direction
3. The child safety seat is in the path of an air bag
4. The harness straps are loose and at the wrong height
5. The child is NOT the appropriate height, weight or age for the safety seat used.
